

Children use different colored unifix cubes to show the pattern of fruit kabob they want to make. Yellow=banana, Red=strawberry, orange=orange wedge.

Nia talks about the pattern she made: "Strawberry, banana, strawberry, banana."

1/18/2013

Children participated in a cooking activity when they used their knowledge of patterns to make fruit kabobs. Patterns are the foundation for understanding the world.

Here is a [link](#) to an article about helping your child recognize patterns in their world.

The children measure and stir the ingredients. Cooking builds confidence, nutritional awareness, and shows the real-world reasons for reading and using math skills.

Children read the steps of making the recipe. We photocopied the recipe cards and cut them out so children could glue them on their paper and review the steps of preparing the fruit dip.
